SAMS Relocating to Pillbox Medical

Los Santos (City Hall) -- Last night (12/28/22), tragedy struck when explosions rocked Eclipse Medical Center. The facility was evacuated by Emergency Services as the situation with the facility worsened, and the injured were rushed to treatment at Sandy Shores Medical. At this time, the cause of this disaster is uncertain - Authorities are currently investigating what could have caused this tragic occurrence. At this time, we have no further updates on this investigation.

With Eclipse Medical Center no longer operable, the San Andreas Medical Services (with Surgeon General Maggie McCormick at the helm) have now relocated to Pillbox Medical. This facility will now serve as the major trauma center of the State of San Andreas, where the doctors, nurses, EMS, and other SAMS staff will continue to offer medical treatment to any and all who need it. The Governor will be working with the Legislative Branch to enact amendments to any legislation necessary to make this transfer as seamless as possible.

While these events are tragic, the State of San Andreas will always bounce back - Bigger and stronger than ever.
