SAN ANDREAS PARKS DEPARTMENT

FOR IMMEDIATE RELEASE

San Andreas Parks Department Announces New Parks Division

San Andreas, 30th March, 2023 - The San Andreas Parks Department is proud to announce the establishment of a new division, the Parks Division. The Parks Division will be responsible for educating and promoting awareness about the wildlife and environment in our parks, without any responsibilities related to law enforcement.

"We are excited to introduce the Parks Division as a new addition to our department," said Charlie Morgan, Head Ranger of the San Andreas Parks Department. "We have always been passionate about education and community engagement, and our new Parks Employees will be perfectly positioned to help foster a deeper appreciation and understanding of the natural beauty that San Andreas has to offer."

The Parks Division will be comprised of experienced professionals who will utilize their environmental and wildlife management knowledge to educate park visitors about the importance of conservation efforts.

"I am proud to see our department expand and evolve to meet the needs of our community," said Poppy Hill, SAPD founder, Department Coordinator, and the newly appointed Supervisor of the Parks Division. "The addition of this new division will allow us to better serve our parks and visitors by providing specialized expertise and support."

I want to assure everyone that this new division will operate with the same dedication and commitment to excellence that has always been at the core of our department. Our Park Rangers are some of the most skilled and dedicated

professionals in their field, and I have every confidence that this new division will be no exception.

I want to express my gratitude to all of our Park Rangers for their hard work and dedication, and to the community for their continued support. We look forward to continuing to serve you and to making our parks safe and enjoyable for all.”

The San Andreas Parks Department has recently completed a hiring wave and is not actively hiring at this time. However, interested individuals can visit the department's website for future job postings and information on how to get involved in supporting the Parks Department's mission.
