

**San Andreas State Police
La Mesa, San Andreas**

PRESS RELEASE

FROM: COMMISSIONER BARRY HILL

As Commissioner of the San Andreas State Police, I want to assure the residents of San Andreas that we are actively investigating the sudden power outage that occurred earlier today. Our Officers and Detectives are on the scene, working closely with the local utility companies to determine the cause of the outage and ensure that power is restored to all affected areas.

At this time, the power has been successfully restored, but the reason for the outage is still unknown. We are treating this incident with the utmost urgency and are exploring all possible explanations, from equipment failure to deliberate sabotage.

I urge all residents of San Andreas to remain vigilant and report any suspicious activity to the authorities immediately. We will do everything in our power to ensure the safety and security of our community, and will provide updates as more information becomes available.

Thank you for your understanding,

A handwritten signature in black ink, appearing to read "B. Hill", is written over a horizontal line.

Barry Hill
Commissioner, San Andreas State Police
