To our Faithful Constituents,

**Re: Excommunication of Bellarosa Muratori**

Following discussions with the incumbent Governor, Bellarosa Muratori, our Party Leader, Jeremy Barbant has made the difficult decision of excommunicating Governor Muratori from the Lighthouse Party.

A core tenet of our beliefs is to halt all instances of capital punishment. Our Party does not condone state-sanctioned murder, and our Party shall not sit idly by as such actions are carried out. Our Party Leader, Jeremy Barbant, previously allowed the passing of this action, once during his tenure and vowed that it would never take place again as he considers it the darkest mark on his time in office.

Governor Muratori made the solemn promise when she joined the Lighthouse Party that she would never sanction the death penalty and it would be commuted; no such commutation was granted. A person was murdered and it was approved across the line. Our Party commits itself to be the stabilizing force in the Government of San Andreas and we must hold the promises of our party members to the highest of standards.

Our Party remains committed to you all, and to our ideals, we shall not abandon them, and shall expel those who do not abide by our core tenents.

Yours faithfully,

Jeremy Barbant  
**Party Leader**
